## Protect What You've Built

First of all, let me thank you for considering Panoramic Investigations for your project. If you are looking for an individual or a group of professionals with a "can do" attitude who are willing to do whatever it takes to make sure that every detail is covered, then you have come to the right place.

Whether your project is big or small, we are going to take a sensible approach to helping you get what you need out of your hard earned resources. Whether you just have that sick feeling in your gut that something is wrong or you know you are in for a war, we are the right partners for you. As the owner of this company, I can say this with confidence because we have handled life and death criminal situations as well as domestic affairs and employee theft.

Our organization is staffed with tough-minded but regular people who have extraordinary training. Our tools included state of the art databases that are not available to the public, courthouse relationships that have been forged over time, patience and a "take the extra time to do it right" attitude. Try to think of us as your loyal supporters who will work with you or your team to help you protect what you've built from predators.

Brian Davidson  
Founder - PI

We are authorized by the Supreme Court of Texas to serve citations and we have broad relationships with Texas's legal authorities. We take a sensible approach to problems with widely accepted techniques and sound internal procedures. But most importantly... WE CARE and we show our COMMITMENT TO OUR CLIENTS with professionalism, integrity and simple communication.

Our partners and investigators include minority specialists, former police, city, county and state employees and a Texas Certified Investigator. We are bi-lingual (Spanish). We are also successful at cooperating with everyone involved in an investigation, from attorneys to witnesses, to courts and police, we can relate. We do jail and prison visits. We are experienced in witness statements, we have worked with both plaintiff and defense law firms and small and large businesses. We also do surveillance, asset searches, auto, train, and boating investigations, witness locates, background checks, process service and domestic investigations.
