

Domestic Investigations

Your family depends on you to keep everything on track, no matter what comes at you. At Panoramic Investigations, we understand the questions and concerns that you may have related to a spouse or ex in domestic matters (marriage, child custody etc.)

Panoramic Investigations takes a non-judgmental, patient approach that will help you quietly discover the truth about your concerns without any crisis. Panoramic Investigators will listen to what you have to say and discreetly look into the situation for you and, if need be, for your attorney.

Whether you like it or not, there is a lot at stake when it comes to your family. Trust issues are the number one cause of divorce in America and they are issues that need to be taken very seriously. Use of drugs, excessive use of alcohol, infidelity, financial problems, disease and other insidious and harmful problems can invade a relationship and end up with the entire family at risk.

Sometimes children are involved and the issue may be one of impending custody or of serious disobedience or misbehavior among a child or family member. Whatever the situation, Panoramic Investigations will custom tailor a practical, street smart plan of action around your budget that will help you prove (in court if need be), the truth. The evidence we gather could be critical if inspected by a judge or jury in the future or if it helps to save your child from harm.

Some of the things Panoramic Investigators can look into for you
